About This Game

It's war, and war is always the same. Western countries are beginning to disintegrate in the face of the threat from the East. The Warsaw Pact states are preparing a large-scale attack and NATO has only one way to prevent World War III. At a secret crisis meeting of NATO Commanders it was decided to create a new Unit, one that cannot be found by the Enemy and leaves no trace. Like a shadow in and out. THE SHADOW UNIT. This Unit is the last line of defense against the Enemy.

Become a shadow and fight for the West and for the preservation of the Western world order or support the East and try to find the shadows. Either way, you fight with all means in different combat zones. Small, big, hot and cold. Prove yourself in different modes and lead your team to the victory.
